*"The only way you really do this is if you love it.
It takes dedication"*

- Andrew Smith

PHILOSOPHY

Mia Cucina ("My Kitchen" in Italian) focuses on creating unique, one-of-a-kind kitchens that integrate seamlessly with your personal dream home. With a philosophy of "The Kitchen with You in Mind", Mia Cucina's Total Kitchen Solution is tailored and customised according to the cooking habits and preferences of each individual customer.

We are dedicated to putting our customers first by designing and creating empathetically – to forge the perfect kitchen for each individual. Mia Cucina offers end-to-end service, all the way from consultation, planning and design to installation and after-sales maintenance.

Mia Cucina's Total Kitchen Solution is inspired by renowned cooking experts and kitchen designers – centering on contemporary, sleek and sophisticated Italian aesthetics realised with first-class European materials. Mia Cucina believes beautiful products with a personal touch are an essential first step to creating an ideal cooking space.

VALUE

PROFESSIONAL PRODUCTS

Through our love for great kitchens, Mia Cucina creates products that are truly one of a kind.

Our products are inspired by Italian style and held to the highest European standards. After a stringent design process that considers every aspect, we use only the finest production materials to provide more durable and stylish appliances.

TIMELESS DESIGN

Originating in Europe, Mia Cucina's appliances are created by expert product designers who stay abreast of the latest trends and integrate these with the functional elements most important to our customers.

Our designs are based on how our customers use our products, which we improve by analysing feedback and constantly looking for new ways to enhance convenience.

SERVICE EXCELLENCE

Supported by Towngas' 6-star service, Mia Cucina offers a Total Kitchen Solution to our customers. We are committed to providing our customers with the best service, from the consultation and design stages to installation and after-sales service.

EAST MEETS WEST

Mia Cucina is passionate about empathetic product design that brings East and West together in the kitchen, integrating the finest European cooking technologies with the rich culture of Chinese gastronomy. Our products are the ideal match for the uniqueness of Chinese cooking, emphasising freshness, seasonality, vibrancy, harmony and style. Every one of our professional-grade appliances expresses its European origins while delivering the quality and reliability necessary to create the most authentic Chinese culinary masterpieces.

DOMINO

Mia Cucina's built-in gas dominos are designed using simple lines, solid colours, and geometric shapes for maximum visual appeal. Heat is consistent and spreads evenly on cookware to create culinary masterpieces a breeze.

TAILORED FOR CHINESE COOKING

The highest rated Italian domino in Mia Cucina's range, our powerful 8 kW gas hob provides super-intense heat for Chinese style cooking. It accommodates a Chinese wok, and the gas burner delivers instantaneous heat for perfect stir-fried dishes.

CHAMFERED SUPPORT

The chamfered hob design provides robust cast-iron support for pots and pans of any size and shape, including traditional Chinese woks, allowing you to create amazing food for your guests without the use of a wok adaptor. Whether you're preparing Chinese or Western cuisine, the even cooking surface allows pans and woks to be easily moved around, while the supports can be removed for easy cleaning.

EXCELLENT PERFORMANCE

Made in Italy from the highest quality materials, our Single Burner Gas Domino has 5 kW of power controlled by a rotary knob, and is suitable for preparing various Chinese dishes. The Double Burner Gas Domino splits its power between a 3 kW and 1.75 kW burner for additional flexibility.

PREMIUM FINISHING

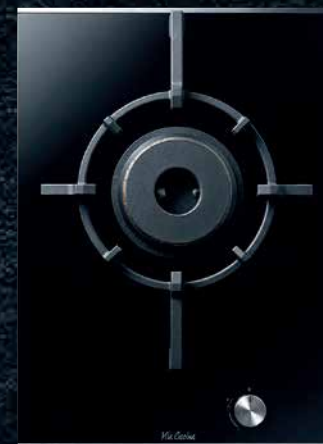

Our black ceramic glass dominos feature metallic profiles that are easy to clean, with metal knobs to complement the overall design of the appliance. They retain their attractive appearance even after long-term use.

SAFETY FIRST

The hobs are equipped with a 'Flame Failure Device' to ensure safety. A thermocouple automatically cuts the gas supply if the flame is accidentally extinguished.

AESTHETIC PERFECTION

Purity and symmetry of line makes these dominos an ideal addition to your kitchen. These units can be installed separately, or combined for the ultimate cooking experience and an appealing sense of elegance and harmony.

OVEN

There is nothing quite like preparing the meal of the day using with a fine oven. Our Italian collection ranges in capacity from 34 L to 65 L, among which gas oven is the only one you can find in the market. Mia Cucina gives you the flexibility to choose the perfect fit for your space and cooking requirements. Designed to match with other Mia Cucina appliances, our versatile ovens give you the freedom to explore more culinary options and delight the whole family with new taste sensations.

GAS OVEN

FLAME COOKING

One of the best baking results is achieved with flame cooking by a gas oven. This 57 L brand-new model includes traditional and grill functions with various temperature setting and time reminder to guarantee your meals are cooked professionally and healthily.

BUILT-IN CONVECTION FAN

With a fan and extra heating element in the interior, the hot air inside is circulated evenly around the food and its wide range of temperature up to 240°C gives more consistency of your cooking and accordingly a satisfactory culinary result.

ROTARY SPIT

Fill your home with delicious aroma of freshly made food, the oven provides a rotary spit allowing various grilling styles, particularly for roasted chickens.

PROVING FUNCTION

It is specially designed to maximize proofing for perfect pizza or bread by offering a consistent environment to keep the dough warm and soft.

MULTIFUNCTION OVEN

MULTIPLE COOKING

With up to 65 L capacities, Mia Cucina ovens offer sufficient space for cooking and baking on your choice of five shelves, saving time and energy by cooking multiple dishes simultaneously.

AUTOMATIC PROGRAMMES

Depending on your chosen function, Mia Cucina ovens will automatically suggest a suitable cooking temperature. Simply choose the type of food, such as meat or fish, and its weight, the oven will set the optimum cooking conditions for the most delicious results.

TOUCH PANEL

The ovens feature touch-sensitive control panels with high-visibility icon and text display for effortless, intuitive menu navigation.

SAFE AND QUIET

Want to keep your cooking environment quiet? With our soft-closing door design, guests outside the kitchen would not hear a thing. A slight push is all you need and the internal closing and cushioning mechanism does the rest.

FOOD PROBE

The cable-connected food probe gives you pinpoint accuracy when preparing roast meat, fish and poultry by calculating the core temperature and displaying the remaining time. Monitoring the preparation progress of your meal has never been so easy and convenient.

TELESCOPIC RAILS

The telescopic rails allow shelves to be effortlessly extended all the way out without the need to remove or support them. Extended shelves sit securely in their tracks and provide complete stability for heavy cookware.

PERFECTION IN DESIGN

Made in Italy, our 45 cm ovens feature attractive slate-black colouring with clean lines to match flawlessly with other Mia Cucina appliances in your kitchen. Designed to be a flexible fit for a variety of kitchen sizes and layouts, it is one of our most popular oven models.

ENERGY EFFICIENT

The EU energy label system categorizes ovens according to energy efficiency. With ratings from 'Class A to A++', Mia Cucina ovens are exceedingly energy efficient and environmentally friendly.

PIZZA STONE

A unique pizza stone replicates the conditions of an authentic pizza oven, delivering optimum cooking conditions for superb crispiness and flavour. Simply place the pizza dough directly on the oven's pizza stone – and you will be enjoying your very own professional-grade pizza in no time.

TRIPLE GLASS DOOR

Safety is a priority at Mia Cucina. That is why our ovens come with triple insulating glass doors to ensure the lowest possible surface temperature by keeping heat inside the oven cavity.

HIGH-TEMPERATURE ASSISTED CLEANING FUNCTION

During the cooking process, fat and other food deposits accumulate inside the oven. High-temperature assisted cleaning breaks down this residue by heating the oven to 250°C, and the ash can be easily removed with a cloth.

STEAM COMBINATION OVEN

HEALTHY COOKING

Steaming is a healthy way of cooking that helps retain the flavour, taste, texture and nutrients of food. Mia Cucina's Steam Combination Oven features all the functions of a conventional oven, combining both dry and moist heat, to deliver a constant temperature over time - and the most professional cooking results. The oven comes with automatic cooking functions make it easy for aspiring chefs to select their desired setting with a simple touch control.

EFFICIENT STEAMING

The Steam Combination Oven is equipped with a removable water tank that holds up to 1 litre of water, enough for steam cooking at full power. Steam temperature can be set up to 130°C, making it ideal for all types of dishes, including fish, meat and vegetables.

MICROWAVE COMBINATION OVEN

MULTIFUNCTION COOKING

If you are looking for versatility, look no further than Mia Cucina's Italian Microwave Combination Oven with its convenient and intuitive touch control. It brings together the advantages of a traditional oven and the practicality of a microwave (grill + microwave) oven, giving you the flexibility to cook all of your favourite dishes to perfection.

The oven features three integrated settings in one – defrosting, grilling and microwave – with 9 cooking functions and a temperature of up to 230°C.

QUICK AND EASY

With 1500 W of grill power and 1000 W of microwave power, the oven makes preparing food quick and easy.

- Sensor touch control

HOOD

Mia Cucina's hoods are the perfect addition to any style-conscious kitchen, integrating high-quality materials, skilful design, advanced technology. Our European hoods are quiet and effective, ensuring fresh air and a clean cooking environment.

MAXIMUM EXTRACTION

Having a powerful extractor fan can often mean compromising on quietness. Mia Cucina's European-made hood has a maximum extraction rate of 12.7 m³/min, providing quiet, efficient extraction at each of its 3 speeds, with an intensive function for extra-powerful extraction. The hood is able to eliminate smoke and odors rapidly with the touch of a simple soft button control.

MODERN DESIGN

Mia Cucina's hood epitomizes cutting-edge innovation and stunning design. The telescopic design gives you more space in the kitchen and maximum flexibility while cooking, extending from 60 to 90 cm to significantly increase coverage over the whole cooking area. Integrated with a large-perimeter chimney, it features an easy-to-clean filter so your cooking area remains clean and hygienic.

FRESHNESS

The intelligent timer for fan operation, and the automatic switch-off function in the intensive mode, allow you to cook with peace of mind.

The durable grease filter traps airborne oil particles, guaranteeing a fresh and hygienic cooking environment. And, to ensure the hood always operates at maximum efficiency, a filter status indicator tells you when the filters need to be cleaned. It is as simple as putting them in the dishwasher.

PLEASANT ENVIRONMENT

Thanks to the hood's LED lamps, you can enjoy excellent illumination without distorting the colour of food. You will also be pleasantly surprised by the maximum sound level - a very quiet 61 dB(A).
